No, A 'Dog Year' Isn't Equivalent To 7 Human Years

By Jessica Orwig — October 9, 2014 7:39 PM

Dogs age at different rates compared to humans, but the simple rule of 7 dog years to 1 human year is far from accurate.

[Solovyova Lyudmyla / Shutterstock](#)

If humans aged seven times slower than dogs, then many of us would be able to reproduce at age 7 and live to be 150. Obviously that's not the case.

The reason that dogs can reach full sexual maturity after only a year is that our canine friends age faster during the first two years of their lives than humans do.

Even this general statement is slightly off since smaller breeds tend to mature faster than larger breeds.

Compared to humans, dogs age more quickly at the beginning of their lives and slower toward the end. Therefore, calculating your dog's age relative to yours is a bit tricky, but luckily it's possible.

Mark Metcalfe/Getty Images

Since smaller breeds tend to live longer than larger breeds, it's important to calculate your dog's age according to the right category: **small** (20 pounds or less), **medium** (21-50 pounds), **large** (51-90 pounds), or **giant** (over 90 pounds).

Age Of Dog (Human Years)	Small Breed: Age In Dog Years	Medium Breed: Age In Dog Years	Large Breed: Age In Dog Years	Giant Breed: Age In Dog Years
1	15	15	14	14
2	23	24	22	20
3	28	29	29	28
4	32	34	34	35
5	36	37	40	42
6	40	42	45	49
7	44	47	50	56
8	48	51	55	64
9	52	56	61	71
10	56	60	66	78
11	60	65	72	86
12	64	69	77	93
13	68	74	82	101
14	72	78	88	108
15	76	83	93	115
16	80	87	99	123

The data in this chart was gathered from [Priceonomics](#).

Note: The Great Dane Club of California recognizes that individual members may support any Great Dane Rescue efforts they choose; however, the Great Dane Club of California as a Club endorses the Great Dane Club of America's Rescue Programs.

No, A 'Dog Year' Isn't Equivalent To 7 Human Years (cont'd)

Although the origins of the seven-year myth is unknown, people have been trying to find a good way to calculate dog years in human years since the 1200s. One of the earliest examples of this is an inscription at Westminster Abbey that dates to the year 1268 and calculates that one human year is equivalent to nine dog years, which was part of some strange way to calculate the [end of the world](#) in the 1200s.

The seven-year rule is thought to much more recent. A veterinarian at Kansas State University told [The Wall Street Journal](#): "My guess is it was a marketing ploy. It was a way to encourage owners to bring in their pets at least once a year."

Cover Story—

CH. LAMPE'S SWEET COUNTRY BOY RUGER CGC, CA

Ruger finished his Championship the first weekend of January in Palm Springs. Since then he has been shown in the Breed ring at a few local SoCal shows and is almost a Grand Champion with only a few more points to go. Ruger at 19 months old has attained the GDCA Versatility award with 3 titles under his belt; his Championship, his Canine Good Citizen and his CA title. The CA title is for Coursing Ability, which is Ruger's all-time favorite sport. He will be working his way towards another title in lure coursing this spring. Another performance sport he enjoys doing is agility, which he goes every week to train. Ruger shows off by going on contact equipment like the dog-walk, A-frame and teeter totter without being told to do so!

With all of the service/therapy dog preparation training Ruger has done, he has been allowed to go on Danielle's college campus to assist classmates in stress and/or anxiety relief. They adore him and are excited to see him when they walk in the door! Ruger even helped nervous students feel more at ease while they gave mandatory speeches in front of the class.

Another exciting avenue explored this year was a Petco photoshoot. Ruger was asked to stay in certain positions and interact with small, hyper, loud children that weren't properly taught how to act around big dogs. Ruger was awesome and just wanted to play the whole time.

This summer I look forward to paddle boarding and having fun in the sun with my best friend, Ruger. I am eager to discover other performance sports that Ruger may enjoy in the future.

I have found that our short time together has already created a major life changing impact.

I am not writing all of this just to brag about how amazing my personal dog is. I am writing this to inspire all Dane owners to see what this incredible breed is capable of accomplishing. All that is required is the time and effort to put into them. Believe that they can achieve more than just Championship titles and rankings. Great Danes are a working breed, not lazy couch potatoes! Get out and go have fun with your Dane!

Big Dog Corner

If you own a Dane that is an “aggressive chewer” then you are in for some good news. I have found extremely durable toys that are made in the USA. I have tried many brands of “tough” toys and was disappointed that my dog was able to destroy it within an hour of playing with it. Not only is it expensive for my dog to chew up toys, but it is also dangerous if he were to ingest pieces of the toy.

The first brand I recommend is **Planet Dog's Orbee-Tuff** material toys. These toys are rated on a scale from 3-5 chompers. They have fun shapes that are large enough for Danes to enjoy. Orbee-Tuff is a plastic (thermo plastic elastomer) made without latex, phthalates or BPAs. A small amount of essential peppermint oil is added to give dogs fresh breath as they chew on the toy! These toys have been tested and shown to be non-toxic since Orbee-tuff was introduced 10 years ago. All Orbee-tuff toys are durable, bouncy, buoyant, minty, and made in the USA. The toys that are rated 5 out of 5 chompers are extremely durable. They are primarily round in shape so the dog can't get an edge of the toy to the back of the jaw, where most of the hard-core chewing occurs. These particular rated toys are also hollow and pliable, which is pleasing to a dog that likes to squeeze and squish toys!

 What else is awesome is that Planet Dog has a 100% satisfaction guarantee. The toys I personally recommend for Great Danes are the “Orbee Ball” (looks like Earth), “Artichoke” and “Eggplant” (both are in the produce section).

For more information about the products offered by Planet Dog visit: <http://www.planetdog.com/Shop>

The second brand I would like to introduce is **West Paw Design's Zogoflex** material toys. This company is very eco-friendly and handcrafts 100% of their products in the USA. The toys they make are BPA and phthalate-free, non-toxic and complies with the FDA. This company as a whole relies on eco-friendly materials and hosts a “Join the Loop” toy recycling program, where any toy that is returned can be sanitized, grinded up, remolded and resold again.

 There are 7 different toys to choose from, which come in 3 main colors; blue, lime green and orange (and sometimes black). These toys can be used to play tug, fetch and of course for chewing. These toys are buoyant and are great for taking to the pool or beach. They are easy to clean and are dishwasher safe.

West Paw Design's guarantee includes a one-time free replacement or refund of a destroyed/damaged toy. The toys I personally recommend are the “Tizzi”, “Bumi”, “Jive Ball” and “Hurley Bone”. These have the option of either small or large size- obviously go with the larger sized toy!

To shop for Zogoflex toys visit: <https://www.westpawdesign.com/dogs/dog-toys/zogoflex-dog-toys>

I discovered these toys from a local store called “Unleashed” by Petco. After trying out and seeing these toys actually held up against my own dog, I had some luck finding more for cheaper on chewy.com and onlynaturalpet.com

*Note: It is always a good idea to pick up all toys that have the possibility of being destroyed and ingested if your dog will be left home alone. These toys mentioned above are indeed sturdy, but are by no means indestructible.

As always, use good judgment in the health and welfare of your big dog. Remember to consult your regular Veterinarian when you have questions and concerns!!

Tell us what makes life with a big dog as easy as it seems, since we all do it so well!

10 Canine Commandments

1. My life is likely to last 10 to 15 years. **Any separation from you will be painful to me.** Remember that before you buy me.
2. **Give me time to understand** what you want from me.
3. **Place your trust in me.** It's crucial to my well-being.
4. **Dont be angry with me** for long, and don't lock me up as punishment. You have your work, your entertainment and your friends. I only have you.
5. **Talk to me sometimes.** Even if I don't understand your words, I understand your voice when it's speaking to me.
6. Be aware that however you treat me, **I'll never forget it.**
7. Remember before you hit me: I have teeth that could easily crush the bones of your hand, but **I choose not to bite you.**
8. Before you scold me for being un-cooperative, obstinate or lazy, **ask yourself if something might be bothering me.** Perhaps I'm not getting the right food, or I've been out in the sun too long, or my heart is getting old and weak.
9. **Take care of me when I get old.** You too will grow old.
10. **Go with me on difficult journeys.** Never say: "I can't bear to watch it", or "Let it happen in my absence." Everything is easier for me if you are there.

REMEMBER THAT I LOVE YOU.
